A Comprehensive Guide to the History, Science, and Performance of Brass Instruments

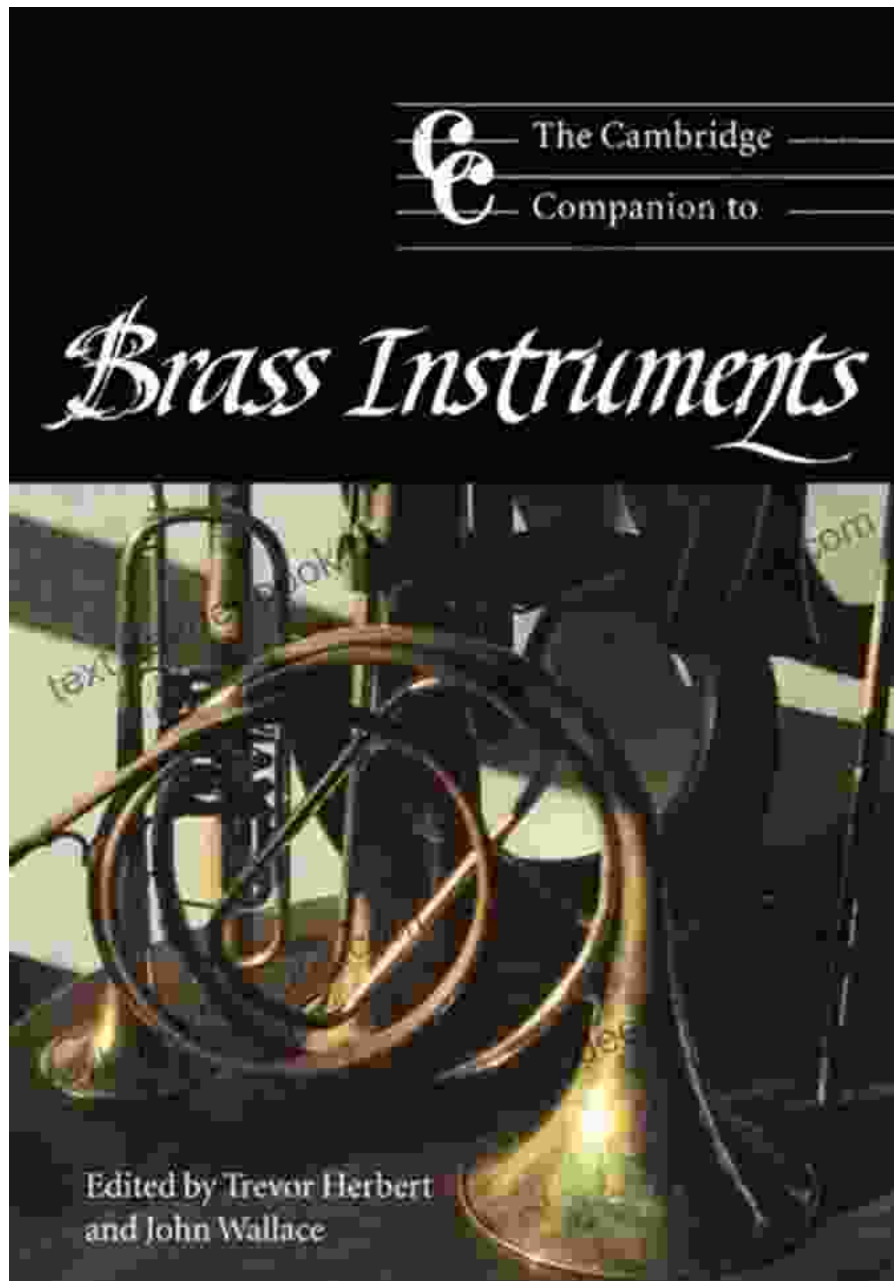

Edited by Trevor Herbert and John Wallace

Cambridge University Press, 2019

: 9781108491349

560 pages

Hardback

Description

The Cambridge Companion to Brass Instruments is a comprehensive guide to the history, science, and performance of brass instruments. It features contributions from leading experts in the field, and covers a wide range of topics, including the acoustics of brass instruments, the history of brass

instrument making, and the performance of brass instruments in different musical genres.

The book is divided into four parts. The first part, "The Acoustics of Brass Instruments," provides a detailed overview of the physics of brass instruments. The second part, "The History of Brass Instrument Making," traces the development of brass instruments from their origins in the early Renaissance to the present day. The third part, "The Performance of Brass Instruments," explores the techniques and traditions of brass instrument playing. The fourth part, "Brass Instruments in Different Musical Genres," examines the role of brass instruments in a variety of musical genres, from classical to jazz to rock.

The Cambridge Companion to Brass Instruments is an essential resource for anyone interested in the history, science, or performance of brass instruments.

Table of Contents

-
- The Acoustics of Brass Instruments
- The History of Brass Instrument Making
- The Performance of Brass Instruments
- Brass Instruments in Different Musical Genres

Reviews

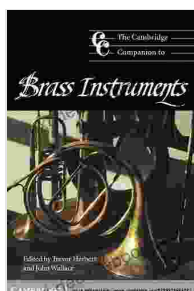

"The Cambridge Companion to Brass Instruments is a comprehensive and authoritative guide to the history, science, and performance of brass

instruments. It is a must-read for anyone interested in these instruments."

- John Wallace, Professor of Trumpet, Royal College of Music

"The Cambridge Companion to Brass Instruments is a valuable resource for students, performers, and scholars of brass instruments. It provides a wealth of information on the history, science, and performance of these instruments."

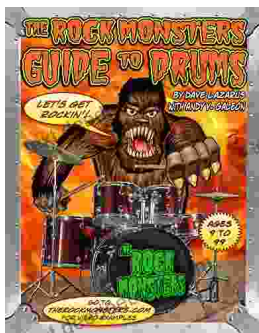

- Trevor Herbert, Professor of Tuba, Indiana University
