The War at Sea Volume III Part II: The Offensive is the second part of Volume III of the Official History of the Royal Navy in the Second World War. It covers the period from January 1943 to August 1945, and focuses on the offensive operations of the Royal Navy against the Axis powers.

The book begins with an overview of the Royal Navy's strategic situation in early 1943. The Axis powers were still in control of much of Europe and North Africa, and the Japanese were threatening to overrun Australia and New Zealand. The Royal Navy was facing a number of challenges, including a shortage of ships and manpower, and the need to protect vital shipping lanes.

Despite these challenges, the Royal Navy played a major role in the Allied victory in the Second World War. The book provides a detailed account of the Royal Navy's operations in the Atlantic, Mediterranean, and Pacific oceans. It also covers the Royal Navy's role in the Normandy landings and the defeat of Japan.
